

# Sheet pull

# BGI090

## Feature & Description

The BGI090 is a stand alone equipment. This equipment tests the pages tearing resistance and the sewing part resistance.

- Stand alone desktop equipment
- Programming and menu navigation by screen touch
- Internal control system: no computer required
- Clamp designed to maintain sheet only or full passport
- Sheet pulling along the e-Passport axis

## Advantages

- Possibility to **test the passports further than the norm** changing only parameters on the interface (strength, speed)
- Easy to use thanks to a screen touch interface in order to create and modify program

### Description

- Width: 202mm
- Depth: 251mm
- Height: 480mm
- Weight: 14kg

### Facilities / Environmental conditions

- Power: 100-240V AC
- Frequency: 50-60Hz single phase
- Intensity: 3.15A
- Operating temperature: +5°C to +50°C
- Storage temperature: -20°C to +60°C

### Test characteristics

- ICAO test or configurable test by menu
- Pulling force: from 1 N to 200 N (ICAO 60N)
- Pulling speed: from 0.05 mm/s à 0.5 mm/s

### Norms references:

- ICAO V3.2 5.10

### Designation

Sheet pulling

### Order reference number

BGI090
