Suitable for PVC, PET, ABS & Paper documents

Special custom metallic coloured and/or holographic magnetic tapes on request subject to min qty order.

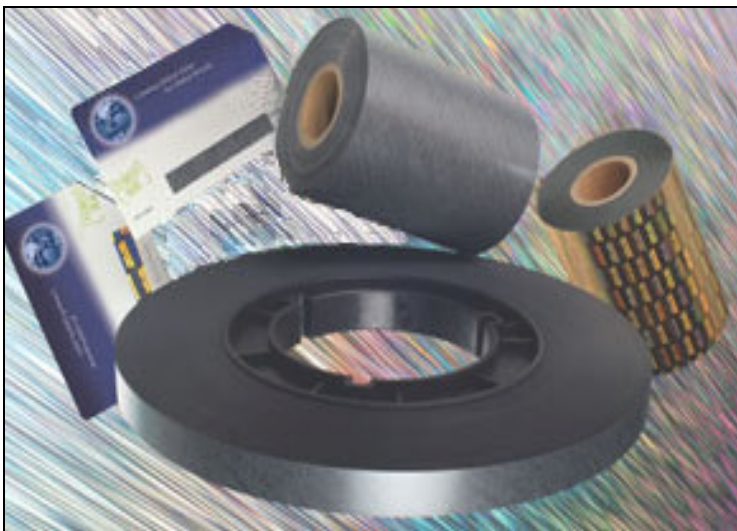

SIGNATURE PANEL FOILS

Signature panel foils are specially formulated with built in security and tamper evident features that will discolor if attempts are made to remove or alter the cardholder's signature. Excellent opacity. Good ink receptiveness.

Standard white opaque signature panels
Imprinted signature panels in 1-2 colour prints
Security imprinted signature panels for credit/debits cards

For security reasons, custom signature panel designs such as those used by Visa, MasterCard or American Express can only be supplied to approve card issuer.

SCRATCH OFF FOILS

Ideal for phone cards and other transaction cards. Scratch-off foils provide a visual security protection to information such as a "PIN" number or password that needs to be secured.

Scratch-off foils are opaque and non-transparent. Custom made distinct holographic scratch-off foil that adds to the decorative appearance of your card, while still concealing the data underneath.

Scratch-off foils adhere to a variety of substrates including PVC, ABS and paper board and can be easily removed by the end user with a coin or fingernail with no danger of the underlying information being destroyed.
